

Dillinger

Dillinger is a cloud-enabled, mobile-ready, offline-storage compatible, AngularJS-powered HTML5 Markdown editor.

- Type some Markdown on the left
- See HTML in the right
- `⌘` Magic `⌘`

Features

- Import a HTML file and watch it magically convert to Markdown
- Drag and drop images (requires your Dropbox account be linked)
- Import and save files from GitHub, Dropbox, Google Drive and One Drive
- Drag and drop markdown and HTML files into Dillinger
- Export documents as Markdown, HTML and PDF

Markdown is a lightweight markup language based on the formatting conventions that people naturally use in email. As [John Gruber] writes on the [Markdown site][df1]

The overriding design goal for Markdown's formatting syntax is to make it as readable as possible. The idea is that a Markdown-formatted document should be publishable as-is, as plain text, without looking like it's been marked up with tags or formatting instructions.

This text you see here is *actually-* written in Markdown! To get a feel for Markdown's syntax, type some text into the left window and watch the results in the right.

Dillinger Plugins

Dillinger is currently extended with the following plugins. Instructions on how to use them in your own application are linked below.

Plugin	README
Dropbox	[plugins/dropbox/README.md][PlDb]
GitHub	[plugins/github/README.md][PlGh]
Google Drive	[plugins/googledrive/README.md][PlGd]
OneDrive	[plugins/onedrive/README.md][PlOd]
Medium	[plugins/medium/README.md][PlMe]
Google Analytics	[plugins/googleanalytics/README.md][PlGa]
